Who We Are

The Market is a non-profit entity supported through vendor fees, WSU Lewis County Extension, City of Chehalis, & supportive community members.

The Community Farmers Market (CFM) is organized by a group of local growers, artisans, & community members.

Our Goals and Mission

The Market brings area farmers & artisans into downtown Chehalis on Tuesday afternoons to sell their fresh produce & value-added products directly to consumers.

By creating a venue for our local businesses, we help ensure farmers continue the tradition of agriculture in our local community, keeping farmland economically viable and intact. The farmers & other vendors meet & know their customers, connecting families through food and local products!

People who live and work in the area enjoy a safe, family-friendly place to go to for the freshest, local produce and value added items available.

What We Offer

The Community Farmers Market is a great place to shop and gather with family and friends. Pick up items on your lunch break or way home from work each **Tuesday**, or as a part of your regular weekly errands.
